

>> SS316 Cam & Groove coupling

Camlock coupling A

Camlock coupling B

Camlock coupling C

Camlock coupling D

Camlock coupling DC

Camlock coupling DP

Camlock coupling E

Camlock coupling F

Specifications

Standard: Our camlock couplings are made to standard of A-A-59326 (previously called MIL-C-27487) or DIN 2828.

Specification

- Sizes available: from 1/2" to 6"
- Types available: A, B, C, D, DC, DP, E, F

Body material

- 316 Stainless steel (CF8M casting)
- 304 Stainless steel (CF8 casting)
- Other material such as SS316L are available on request

Cam levers

- We use stainless steel handle.

Pins, Rings and Safety clips

- For 316 stainless steel camlock coupling: We use stainless steel Pins, Rings and Safety clips.

(Note: Safety clips are only available when required by the client, the client have to pay additional if need safety clips)

Sealings

- NBR
- EPDM
- Viton
- PTFE envelop gasket (NBR wrapped by PTFE)

Threads

- NPT
- BSP (We usually make the female thread parallel BSPP, male thread tapered BSPT)
